Address: PSC 8233, Box 1370, APO AA 62518

Summary

Results-driven engineer specialist with proven track record

Skills

microservices • aws • docker • python • rest api • sql • java • mongodb

Experience

11/2017 - 01/2021

Engineer Lead - Miller-Luna

- Optimized database performance and scalability
- Led technical design and code reviews
- Led technical design and code reviews
- Optimized database performance and scalability

05/2023 - 02/2025

Engineer Senior - Wood Group

- Implemented microservices architecture
- Developed 16 applications using modern technologies
- Led technical design and code reviews

11/2022 - 11/2024

Engineer Senior - Thompson-Cooper

- Implemented microservices architecture
- Implemented microservices architecture
- Developed 16 applications using modern technologies
- Developed 7 applications using modern technologies

07/2019 - 11/2019

Engineer Lead - Gross, Gibbs and Hernandez

- Implemented microservices architecture
- Developed 9 applications using modern technologies
- Developed 8 applications using modern technologies

Education

- Bachelor of Engineering, Morales Group University (2014)

- Bachelor of Engineering, Bishop, Kim and Edwards University (2015)
