Summary

Results-driven engineer specialist with proven track record

Skills

rest api • node.js • kubernetes • git • machine learning • scrum • mongodb • java

Experience

06/2019 - 03/2022

Engineer Specialist - Brown, Young and Sullivan

- Developed 12 applications using modern technologies
- Implemented microservices architecture
- Implemented microservices architecture
- Led technical design and code reviews

10/2018 - 09/2021

Engineer Specialist - Wilcox, Costa and Hill

- Optimized database performance and scalability
- Implemented microservices architecture
- Optimized database performance and scalability
- Implemented microservices architecture

11/2022 - 01/2023

Engineer Specialist - James, Schaefer and Mcdonald

- Implemented microservices architecture
- Implemented microservices architecture

02/2019 - 10/2023

Engineer Lead - Davies, Wolfe and Norton

- Implemented microservices architecture
- Optimized database performance and scalability
- Implemented microservices architecture
- Optimized database performance and scalability

Education

- Associate of Computer Science, Wheeler, Mathis and Kelley University (2015)

- Master of Marketing, Rogers-Johnston University (2018)
